Village President Report. President Goetz reported on the following: The Community Rummage sale is Friday and Saturday from 8 – 3. Maps are available at the Village Hall, Community Center and our website. The Public Works Committee and Finance Committee will meet beginning at 6 pm on Tuesday, May 3 at Village Hall. The Architectural Review Board will meet on Wednesday, May 4 at 10 am at Village Hall. President Goetz also encouraged residents to slow down on the detour route and the construction area as this is a safety concern.

A motion by Goetz, seconded by Dietrich, to take up Item 9B at this point in the agenda. Motion carried.

President Goetz presented a crystal plaque to Clerk-Treasurer Susan Freiheit commemorating her 39 years of service to the Village. President Goetz also presented Mrs. Freiheit with a street name sign entitled Freiheit Court.

A motion by Goetz, seconded by Uecker, to take up Item 8A at this point in the agenda. Motion carried.

A motion by Goetz, seconded by Zarzynski, to adopt the Resolution Authorizing the Issuance and Sale of \$1,570,000 Water System Revenue Refunding Bonds, Series 2016C, of the Village of Sussex, Waukesha County, Wisconsin, to Bankers' Bank and providing for the payment of the bonds and other details with respect to the Bonds. Trustee Uecker abstained. President Goetz and Trustees present voted "aye." Motion carried.

A motion by Stallings, seconded by Goetz, to approve the following contracts: Redeem & Restore contract and event on June 17, 2016. The Redeem and Restore event is a 5K walk in the park to bring awareness about human trafficking. Tom Volpe's request to use the lighted diamond in Village Park on June 25th. Tom requested the charge (\$100) for renting the lighted diamond be waived for a tournament to make up for the reduced volume of sales of concessions with less softball teams. Mike Harrington's request for the disc golf course Wednesday evenings from April 27 – September 7. Mike Harrington's request is the second year of the league play. Motion carried.

A motion by Tetzlaff, seconded by Goetz, to approve the CSM for Mammoth Springs Development south of the Quarry pond, subject to vacation of the roadway and standard conditions of CSM approval. Motion carried.

A motion by Zarzynski, seconded by Uecker, to approve the Storm Siren replacement purchase for the siren located at N74W23440 Water Tower Ct. The cost of the siren is \$19,688.16. The siren is over 20 years old so it is recommended for full replacement vs. just changing out the damaged hardware for over \$7,000. The Village has funds depreciated for siren replacement. The siren covers the northeastern corner of the Village including Woodside School. Motion carried.

A motion by Zarzynski, seconded by Stallings, to approve the Public Parking in the Public Safety Parking Lot and directing staff to update the official traffic map of the Village. There have been concerns from both Captain Panas and Chief Curtis about public use of the lot and its impacts on their crews' safety and ability to do their jobs. It is also important to note that the public uses the site to access the bugline trail, to complete private sale transactions, and a safe spot for custody type transfers, etc. Motion carried.

A motion by Zarzynski, seconded by Tetzlaff, to authorize the placement for a "Slow Down Children Present" sign to be established at Old Mill Lane. Trustee Stallings voted "no." Motion carried.

Staff Reports: Mrs. Weiss stated that there is a water main break in front of Associated Bank and that water will be turned back on in about 1½ hours. Mrs. Weiss thanked the residents for their patience during this break and thanked Jon Bauman and Dan Plese for their extra help in getting this fixed. Mrs. Weiss stated that the bridge in front of Associated Bank will be demolished shortly. Mrs. Weiss asked motorists using the detour routes to slow down as there are children present. Mr. Smith reported that Capt. Panas has reported that people are speeding in the detour routes and that this is a safety hazard. Mr. Macy reported on the League report regarding the recycling grant, water law changes, the property rights bill and procedures regarding abandoned residential property in a foreclosure action. Mrs. Freiheit thanked the Village Board, the Village Staff and all of the residents for the last 39 years.

As there was no one present who wished to be heard, the Board remained in regular session.

A motion by Goetz, seconded by Stallings, to adopt a Resolution authorizing the application of an Outdoor Recreation Grant with the DNR for the Historic Depot to relocate to Madeline Park. If received this grant could cover 50% of the projects cost to move the depot to Madeline Park. President Goetz and all Trustees present voted "aye." Motion carried.

A motion by Goetz, seconded by Carran, to approve the Preliminary Plat and Developer's Agreement including intermunicipal agreement with the Town of Lisbon as Exhibit L for Johanssen Farms, east side of Maple Avenue south of Clover Drive subject to standard approvals of preliminary plats and the conditions of the Plan Commission. President Goetz and all Trustees present voted "aye." Motion carried.

A motion by Goetz, seconded by Zarzynski, to adopt an ordinance recreating subsection 18.10065(b)(1)3. which relates to the annual increase of park impact fees and to recreate subsection 18.10065(b)(2)3. which relates to the annual increase of library impact fees of chapter 18 entitled "Land Division and Development ordinance" of the Village of Sussex Municipal Code. This change would adjust the annual increase of impact fees to 3% annually after they reach the impact fee studies cap level from today's standard of an increase based upon CPI. This is being adjusted as CPI does not reflect construction costs for these facilities. President Goetz and all Trustees present voted "aye." Motion carried.

A motion by Goetz, seconded by Tetzlaff, to approve the Intermunicipal Agreement between the Village of Lannon, and the Village of Sussex, the Town of Lisbon, Lisbon Sanitary District #1, and the Village of Menomonee Falls for the Lannon Interceptor. The existing Agreement is actually over and the parties have been operating in good faith while we negotiated a new one. The new deal is significantly better structured to reflect a system of operating costs and actual usage vs. the original deal which was structured based upon construction costs and ultimate usage. Trustee Carran abstained.

President Goetz and Trustees present voted "aye." Motion carried.

A motion by Goetz, seconded by Uecker, to adopt a Resolution naming Casen Griffiths as Clerk-Treasurer effective May 6, 2016. Sue Freiheit is retiring after 39 years in the business.

President Goetz and all Trustees present voted "aye." Motion carried.

Appointments and Resignations. There were none.

A motion by Zarzynski, seconded by Uecker, to adjourn the meeting at 7:47 p.m. Motion carried.

Respectfully submitted,

Susan M. Freiheit
Clerk-Treasurer

MEMORANDUM

To: Village Board

From: Jeremy Smith, Village Administrator

Re: Village Board Meeting

Date: 5/5/2016

4.A. Village President Report. Report on meetings attended, communication, up-coming meetings and special recognitions including Successfully Sussex Awards.

5.A.1. Staff recommends approval of the April Check Registers and P-card Statement for the amount of \$2,760,333.08. Please see the check registers/statements for more information.

5.A.2. The Finance and Personnel Committee recommends approval of the Operators Licenses for Orrin Gorelick, and Jaymison Haeussler, subject to the standard conditions of Operator License approvals. The Committee recommends denial of the Operators License for Carlos Arroyo for failure to complete the process. Please see the applications for more information.

5.A.3. Staff recommends approval of an application for temporary Class "B" Picnic License for the Sale of Fermented Malt Beverages and a temporary "Class B" Picnic License for the Sale of Wine by the Sussex Lions Club at Sussex Village Park for Sussex Lions Daze from July 15-17, 2016 subject to the standard conditions of Liquor License approval. Please see the application for more information.

5.A.4. Staff recommends denial of claim by Laura Edwards for vehicle damage from a manhole cover per the insurance company recommendation. Please see the letter from the insurance company for more information.

5.A.5. Staff recommends approval of the 2016 Weights and Measures Contract with the State of Wisconsin Department of Agriculture, Trade, and Consumer Protection. State Law requires the State to charge the local government for this work and the Village bills the vendors back for the costs. Please see the contract for more information.

5.A.6. Staff is updating the board with the 2015 Sewer and Water Management Discussion and Analysis, which gives a summary of the financial audit for the two utilities. The Utilities are in good position. Please see the Analysis for more information.

5.A.7. Staff recommends approval of the 1st Quarter 2016 Investment Report. The Village earnings are up due to the State pool rates going from .17 to .41. This is still incredible low. Please see the Report for more information.

5.B.1. Staff recommends approval of the public work bills in the amount of \$978,663.79. Please see the bills list for more information.

5.B.2. Staff recommends approval of the purchase of SorbX for pilot test. The costs of the pilot will be about \$41,000 and is the next step in the Village's process to comply with the phosphorous rules. The Hartford WWTF has been using this product for over a year with great success. Please see the memo from Assistant Public Works Director, Dennis Wolf for more information.

5.B.3. Staff recommends approval of the crack filling contract with Crack Filling Corp. for \$22,000. Crack filling is an important maintenance step of the road program to keep water out of the roadway base. Please see the memo from Assistant Public Works Director, Dennis Wolf for more information.

8.A. Staff will have some options for the board room chairs and colors that we would appreciate Village Board input on. A staff workgroup worked with all of the various departments for their furniture needs in the new Civic building, which we are bidding out shortly. The costs of the furniture are all included in the cost of the project found in the CIP and we are tracking on budget with the requests, subject to bids received. We will have some color choices at the meeting. Please see the memo from Assistant Administrator Melissa Weiss for more information.

8.B. Staff recommends approval of the Amended Final Resolution Regarding Industrial Development Revenue Bond Financing for Sussex IM, Inc. Project. They had to upsize the offering for phase 1 from \$6.5 million to \$7.5 million. If you remember the initial resolution authorized up to \$10 million so they are still below this. These bonds have no impact on the Village credit. Please see the resolution for more information.

8.C. Staff recommends approval of the Ordinance to create Section 4.035 entitled "Mobile Food Vendor" of Chapter 4 Licenses and Permits in the Municipal Code of the Village of Sussex. This was recommended by the Plan Commission and a citizen workgroup as a way to ease into the Food truck world. It limits Food Trucks to the business park roadways, private property with permission of the property owner, and Village Parks with permission of the Village for special events and the farmers market. Please see the Ordinance for more information.

8.D. Staff recommends approval of the Resolution establishing the number and amount of Fees for Mobile Food Vendor Licenses. The workgroup after careful consideration recommended 5 licenses and a fee of \$200 per license, plus the investigation fee in order to cover the costs. The limit of five was established to ensure proper administrative staffing was available to complete the fire inspections and keep track of the program initially. This issue can be looked at annually. Please see the Resolution for more information.

9.A. Staff will give an update on the Village Park Master Plan and the next step of hiring an architect for the design of Phase 1. Please see the memo from Village Administrator Smith for more information.

RE: Our Claim #:
Date of Loss:
Claimant:

Loss location: Intersection of Salem Dr. & Maize Ct.
Sussex, WI 53089

Dear Ms. Whalen:

As you know, Statewide Services, Inc. administers the claims for the League of Wisconsin Municipalities Mutual Insurance, which provides the insurance coverage for the Village of Sussex. We are in receipt of the above-captioned claim involving damage to the claimant's vehicle.

Our investigation has revealed that the Village was not negligent for this incident. Therefore, we recommend that the Village disallow this claim pursuant to the Wisconsin Statute for disallowance of claim 893.80(1g). The disallowance of the claim in this manner will shorten the statute of limitations period to six months.

This unfortunate loss occurred when the claimant allegedly drove over a Village manhole which had a loose cover, thus, the cover flipped up to damage the vehicle's wheel, tire and tire pressure sensor. The Village had no prior notice of the compromised manhole (cover), thus, Village staff had no opportunity to repair the problem prior to the claimant damage. The Village would not be liable for the loss unless staff had prior notice of the compromised manhole (cover), and had adequate time to repair the problem prior to the loss occurring. Furthermore, the City would be afforded discretionary immunity per Wisconsin Statute 893.80 for their "governmental" acts or decisions about road maintenance.

Note: the manhole (cover) in question had previous damage, and it had been repaired via a "cold patch" which Public Works Director, Melissa Weiss, advised is a standard procedure during winter months. The Village had no prior notice that the repaired manhole (cover) had again become compromised. Once more, there is no evidence that the Village failed to adhere to any ministerial duties with the initial "cold patch" repair of the manhole (cover) in question; thus, the same discretionary immunity noted above would apply.

Given the Village is not liable for causing the compromised manhole (cover) and/or given the Village had no prior notice that it had become compromised and/or given the immunity in place, we recommend that the claim be disallowed

I have enclosed a sample Notice of Disallowance for your use, should you choose to use it, or you may use your own. Please send your disallowance, on your letterhead, directly to the claimant at the above listed address. This should be sent certified or registered (restricted) mail, and must be received by the claimant within 120 days after you received the claim. Please send me a copy of your letter for our file.

Thank you for your attention to the above, Nancy, and please do not hesitate to contact me with any questions.

Best regards,

Doug Detlie

[REDACTED]

Our insured: Village of Sussex
Claim No: [REDACTED]
Date/Loss: 02/25/2016

Dear Ms. Edwards:

Statewide Services, Inc. administers the claims for the League of Wisconsin Municipalities Mutual Insurance, which provides the insurance coverage for the Village of Sussex. We are in receipt of your claim involving vehicle damage on account of driving over a manhole which had a loose cover.

We have completed our investigation, and we recommend that the Village of Sussex disallow your claim. This unfortunate incident occurred when you drove your vehicle over a manhole where the cover had become loose, thus, it was flipped up to damage the wheel, tire and tire pressure sensor of your vehicle. The Village had no prior notice that the compromised manhole (cover) existed, thus, Village staff was unable to take a measure to repair the manhole (cover) prior to your loss. The Village would not be liable unless they knew, or should have known, about the compromised manhole (cover) and had adequate to correct the problem. Finally, the Village would be afforded discretionary immunity per Wisconsin Statute 893.80 for the "governmental" acts or decisions about road maintenance.

Note: the manhole (cover) in question had previously been damaged, and it had been repaired via a "cold patch" which is a standard procedure during the winter months. The Village had no prior notice that the repaired manhole (cover) had again become compromised, though staff took measures to periodically inspect the repair. Once more, there is no evidence that the Village failed to adhere to any ministerial duties with their initial "cold patch" repair of the manhole (cover) in question; thus, the same discretionary immunity noted above would apply.

Given the Village had no prior notice that the repaired manhole (cover) had again become compromised and/or given the discretionary immunity in place for the Village regarding road maintenance, Statewide Services, Inc. will be unable to pay for your claimed damages.

MANAGEMENT'S DISCUSSION AND ANALYSIS (Unaudited)

As of and for the Years Ended December 31, 2015 and 2014

The purpose of this section is to provide users with an objective easy to read overview of the financial activities of the Sussex Sewerage System Utility for the years ended December 31, 2015 and 2014. This section should be read in conjunction with the financial statements and the accompanying notes that follow.

FINANCIAL HIGHLIGHTS

- The utility's operating loss decreased from (\$511,469) in 2014 to (\$206,351). This was mainly due to a decrease in depreciation expense as many assets became fully depreciated. Also, operating revenues increased slightly. The loss before capital contributions and transfers decreased from (\$653,230) in 2014 to (\$333,353).
- The utility's total cash position increased to \$4,975,674, an increase of \$452,361 from 2014 with capital contributions of \$435,813 accounting for the majority of the \$484,926 increase to restricted cash. Unrestricted cash decreased \$32,565.
- The utility's total net position increased in 2015 to \$26,693,742 up \$98,629 from the 2014 total of \$26,473,285.

REQUIRED FINANCIAL STATEMENTS

The financial statements report information of the utility using accounting methods similar to those used by private sector companies. These statements offer short and long-term information about its activities. The Statement of Net Position includes all of the utility's assets and liabilities and provides information about the nature and amounts of investments in resources (assets) and the obligations to utility creditors (liabilities). It also provides the basis for evaluating the capital structure of the utility and assessing the liquidity and financial flexibility of the utility.

All of the current year's revenues and expenses are accounted for in the Statement of Revenues, Expenses and Changes in Net Position. This statement measures the success of the utility's operations over the past year and can be used to measure profitability and credit worthiness and to determine whether the utility has successfully recovered all of its costs through the user fees and other charges.

The final required financial statement is the Statement of Cash Flows. The statement reports cash receipts, cash payments, and net changes in cash resulting from operations, investing, and financing activities and provides answers to such questions as where did cash come from, what was cash used for, and what was the change in the cash balance during the reporting period.

FINANCIAL ANALYSIS OF THE UTILITY

An important question that is asked and needs to be answered is "how have this past year's activities affected the overall financial health of the utility?" The Statement of Net Position and the Statement of Revenues, Expenses, and Changes in Net Position will help to answer this question. The Statement of Net Position, which shows the difference between assets and liabilities, can be analyzed over a period of time to help the reader determine whether the financial condition of the utility is improving or deteriorating. This statement must be reviewed in conjunction with a number of other non-financial factors that can have an impact on the financial health of the utility. For instance, changes in local economic conditions, legislative changes, demographic changes, even weather, can affect, positively or negatively, the financial health of a utility.

MANAGEMENT'S DISCUSSION AND ANALYSIS (Unaudited)

As of and for the Years Ended December 31, 2015 and 2014

FINANCIAL ANALYSIS OF THE UTILITIES (continued)

As shown in Table A-1 below, the sewerage system utility's total net position increased by \$98,629 during 2015, an increase of 0.4%. All prior years shown, had annual decreases in net position. The 2015 increase is a result of increased operating revenues and capital contributions along with decreased depreciation expenses. Also, new accounting standards required the net pension benefit to be recorded which resulted in an increase in the utility's net position

During 2014, the utility's total net position decreased by \$368,302, a decrease of 1.4%.

While the Summary of Net Position (Table A-1) shows the change in our financial position, the Statement of Revenues, Expenses and Changes in Net Position provides answers as to the nature and source of these changes. As can be seen in Table A-2 the operating revenues increased \$51,962 and non-operating revenues decreased \$6,274 in 2015 when compared to 2014. Increased operating revenue is a result of a rate increase as well as increased usage; the decrease in non-operating revenue is a result of lower interest earnings and no longer receiving a Build America Bonds' rebate. Operating expenses decreased \$253,156 and non-operating expenses decreased \$21,033 in 2015. The main decrease in operating expenses was for depreciation, with small increases to overall operation and maintenance expenses. Non-operating expenses (interest on long-term debt) decreased as the outstanding debt has decreased.

Capital contributions fluctuate greatly from year to year. Additions in 2015 consisted of RCA fees paid from an apartment project and several retail projects as well as payments for special assessments as property was attached to the Village. In 2014, there were RCA fees paid. This account is unpredictable and can vary greatly depending on subdivisions added, RCA fees collected, or special assessments levied in the current year. Dollar amounts here are generally offset by capital assets added to the utility.

CAPITAL ASSETS AND DEBT ADMINISTRATION

CAPITAL ASSETS

At the end of 2015 the Utility had \$27.2 million invested in property, plant and equipment in service. This reflects a decrease of \$0.4 million during 2015. Depreciation accounts for the decrease but is offset with additions to the property, plant and equipment accounts.

At the end of 2014 the Utility had \$27.6 million invested in property, plant and equipment in service. This reflects a decrease of \$0.9 million during 2014. Depreciation accounts for the decrease despite additions to the property, plant and equipment accounts including construction in progress for future system replacements as part of a major road reconstruction project.

DEBT

The utility has outstanding debt of \$9,019,701 at year end. This represents a decrease of \$813,033 during 2015. Of the total amount, \$3,785,000 comprises debt backed by the full faith and credit of the government. The remainder of the debt represents bonds secured solely by specified revenue sources (i.e., revenue bonds).

ECONOMIC FACTORS AND NEXT YEAR'S BUDGETS AND RATES

The last rate adjustment for the sewerage utility took place on July 1, 2015 when rates were increased 3.0% for all customers. As part of the 2016 budget process, a 3% rate increase for all customers was approved by the Village Board to go into effect July 1, 2016. The Utility has reserves on hand to cover future contingencies.

While the Summary of Net Position (Table A-1) shows the change in our financial position, the Statement of Revenues, Expenses and Changes in Net Position provides answers as to the nature and source of these changes. As can be seen in Table A-2 the operating revenues increased \$65,428 and non-operating revenues decreased \$7,980 in 2015 when compared to 2014. Increased operating revenue is a result of higher water with a small increase in the number of customers; the decrease in non-operating revenue is a result of lower interest earnings. Operating expenses increased \$20,425 and non-operating expenses decreased \$14,469 in 2015. The increase in operating expenses is from increased outside services to deal with ammonia and increased benefit costs. Non-operating expenses (interest on long-term debt) decreased as the outstanding debt has decreased.

Capital contributions fluctuate greatly from year to year. Additions in 2015 consisted of RCA fees paid mainly from an apartment project. In 2014, there were RCA fees paid mainly from an apartment project and a condominium project. Capital and related financing activities represents borrowing money as well as spending and repaying that money. It also includes the collections of Reserve Capacity Assessments. Lastly, investing activities represents interest earnings on the utility's investments.

In the years before 2014, the cash reductions were a result of spending what remained of funds that had been borrowed (\$1,215,000). However, in 2015, debt payments as well as capital costs totaling almost \$1.2 million were funded with operating cash resulting in the decrease shown above.

Highlights of the Quarter:

- ❖ The balances have decreased due to payouts of tax collections; however, the receipt of bond proceeds has caused our balances to be higher than normal at this time of year.
- ❖ The rate paid by the LGIP has gone from .14% at the end of December to .41% at the end of March. Most of our bond proceeds are on deposit at the pool earning this higher rate until we need them.
- ❖ The average yield for the quarter was 0.326%, excluding the B Bonds. This is higher than the prior quarter by 0.038%.

While the total of investments may seem like a large amount, there are various reserves required by our borrowing instruments. Other funds are set aside for specific purposes as set by the Village Board or Village policies. Funds are categorized as follows:

MEMORANDUM

From: Dennis Wolf, Assistant Public Works Director Operations

Re: W.W.T.F. Phosphorus Removal

Village of Sussex staff and consulting engineers, Ruekert – Mielke are continuing efforts to comply with the Water Quality Based Effluent Limits for Total Phosphorus that are listed in Sussex Wastewater Treatment Facilities WPDES Permit.

In the initial report filed with the Wisconsin Department of Natural Resources in September of 2015, several optimization action plans were listed to try to achieve the lower phosphorus limits in the effluent.

The next optimization action plan is to conduct a pilot study by replacing ferric chloride with a rare earth chemical compound called cerium chloride. Ferric chloride is added to the wastewater stream during the treatment process to precipitate and settle the phosphorus in the sludge. SorbX, a rare earth chemical compound, works in the same manner as ferric chloride, but has the added benefit of being more efficient at removing phosphorus. During other pilot studies at similar plants, SorbX has removed phosphorus to below the new permit levels.

To complete a proper pilot study, staff recommends purchasing two tank loads of SorbX, 3,450 gallons each, to complete a 50 – 60 day trial. Each tank load costs \$ 20,500, for a total cost of \$ 41,000.

Funds to pay for the pilot study would come from a combination of the 2016 Wastewater budget. The use of SorbX results in less sludge production, thereby saving us \$10,000 in sludge hauling expenses from the 2016 budget. The remaining \$31,000 would be taken from other funds, of which there was \$1,500,000 in reserve at the end of 2015.

Re: 2016 Crack Sealing Services

Crack sealing of our roads plays an important role for their maintenance. The life of the road can be extended by preventing water from entering the cracks, and causing damage during freeze/thaw cycles. The following areas were identified by staff to be crack sealed during 2016; Clover Drive from the wastewater treatment plant entrance west to Hwy. 164, Hastings Court, and all of the streets north of Clover Drive in the Eagle's Ridge subdivision.

Our specifications for the project included routing the crack, then heat lancing for better adhesion of material.

We have received a proposal from Crack Filling Service, Corp. for \$22,000 for this project.

In 2015, staff received three bids for these services, and Crack Filling Services were awarded the contract based upon the lowest bid. Crack Filling Services, Corp. has provided this service to the Village of Sussex for over twenty years, and we have been very pleased with their customer service and the work that they have done.

Staff recommends approving the quote from Crack filling Services, Corp. for the areas listed above for \$22,000, with the funds coming from the 2016 street budget.

- (e) the loan payments provided for in the Bond Agreement, and the formulas set out for revising those payments under the Bond Agreement as required under the Act, are sufficient to produce income and revenue to provide for prompt payment of principal of and interest on and premium, if any, on Bonds issued under the Bond Agreement when due; the amount necessary in each year to pay the principal of and interest on the Bonds is the sum of the principal of, and interest on, the Bonds due in such year, whether on a stated payment date, a redemption date, or otherwise; the Bond Agreement provides that the Borrower shall provide for the maintenance of the Project in good repair, keeping it properly insured; and
- (f) under the provisions of the Act, the Bonds shall be limited obligations of the Issuer and the Bonds do not constitute an indebtedness of the Issuer, within the meaning of any

state constitutional or statutory provision, and do not constitute nor give rise to a charge against the Issuer's general credit or taxing powers or a pecuniary liability of the Issuer.

Section 3 Approvals and Authorizations; Authentication of Transcript.

MEMORANDUM

To: Village Board

From: Jeremy Smith, Village Administrator

Re: Village Park Master Plan Phase 1 Architectural Services

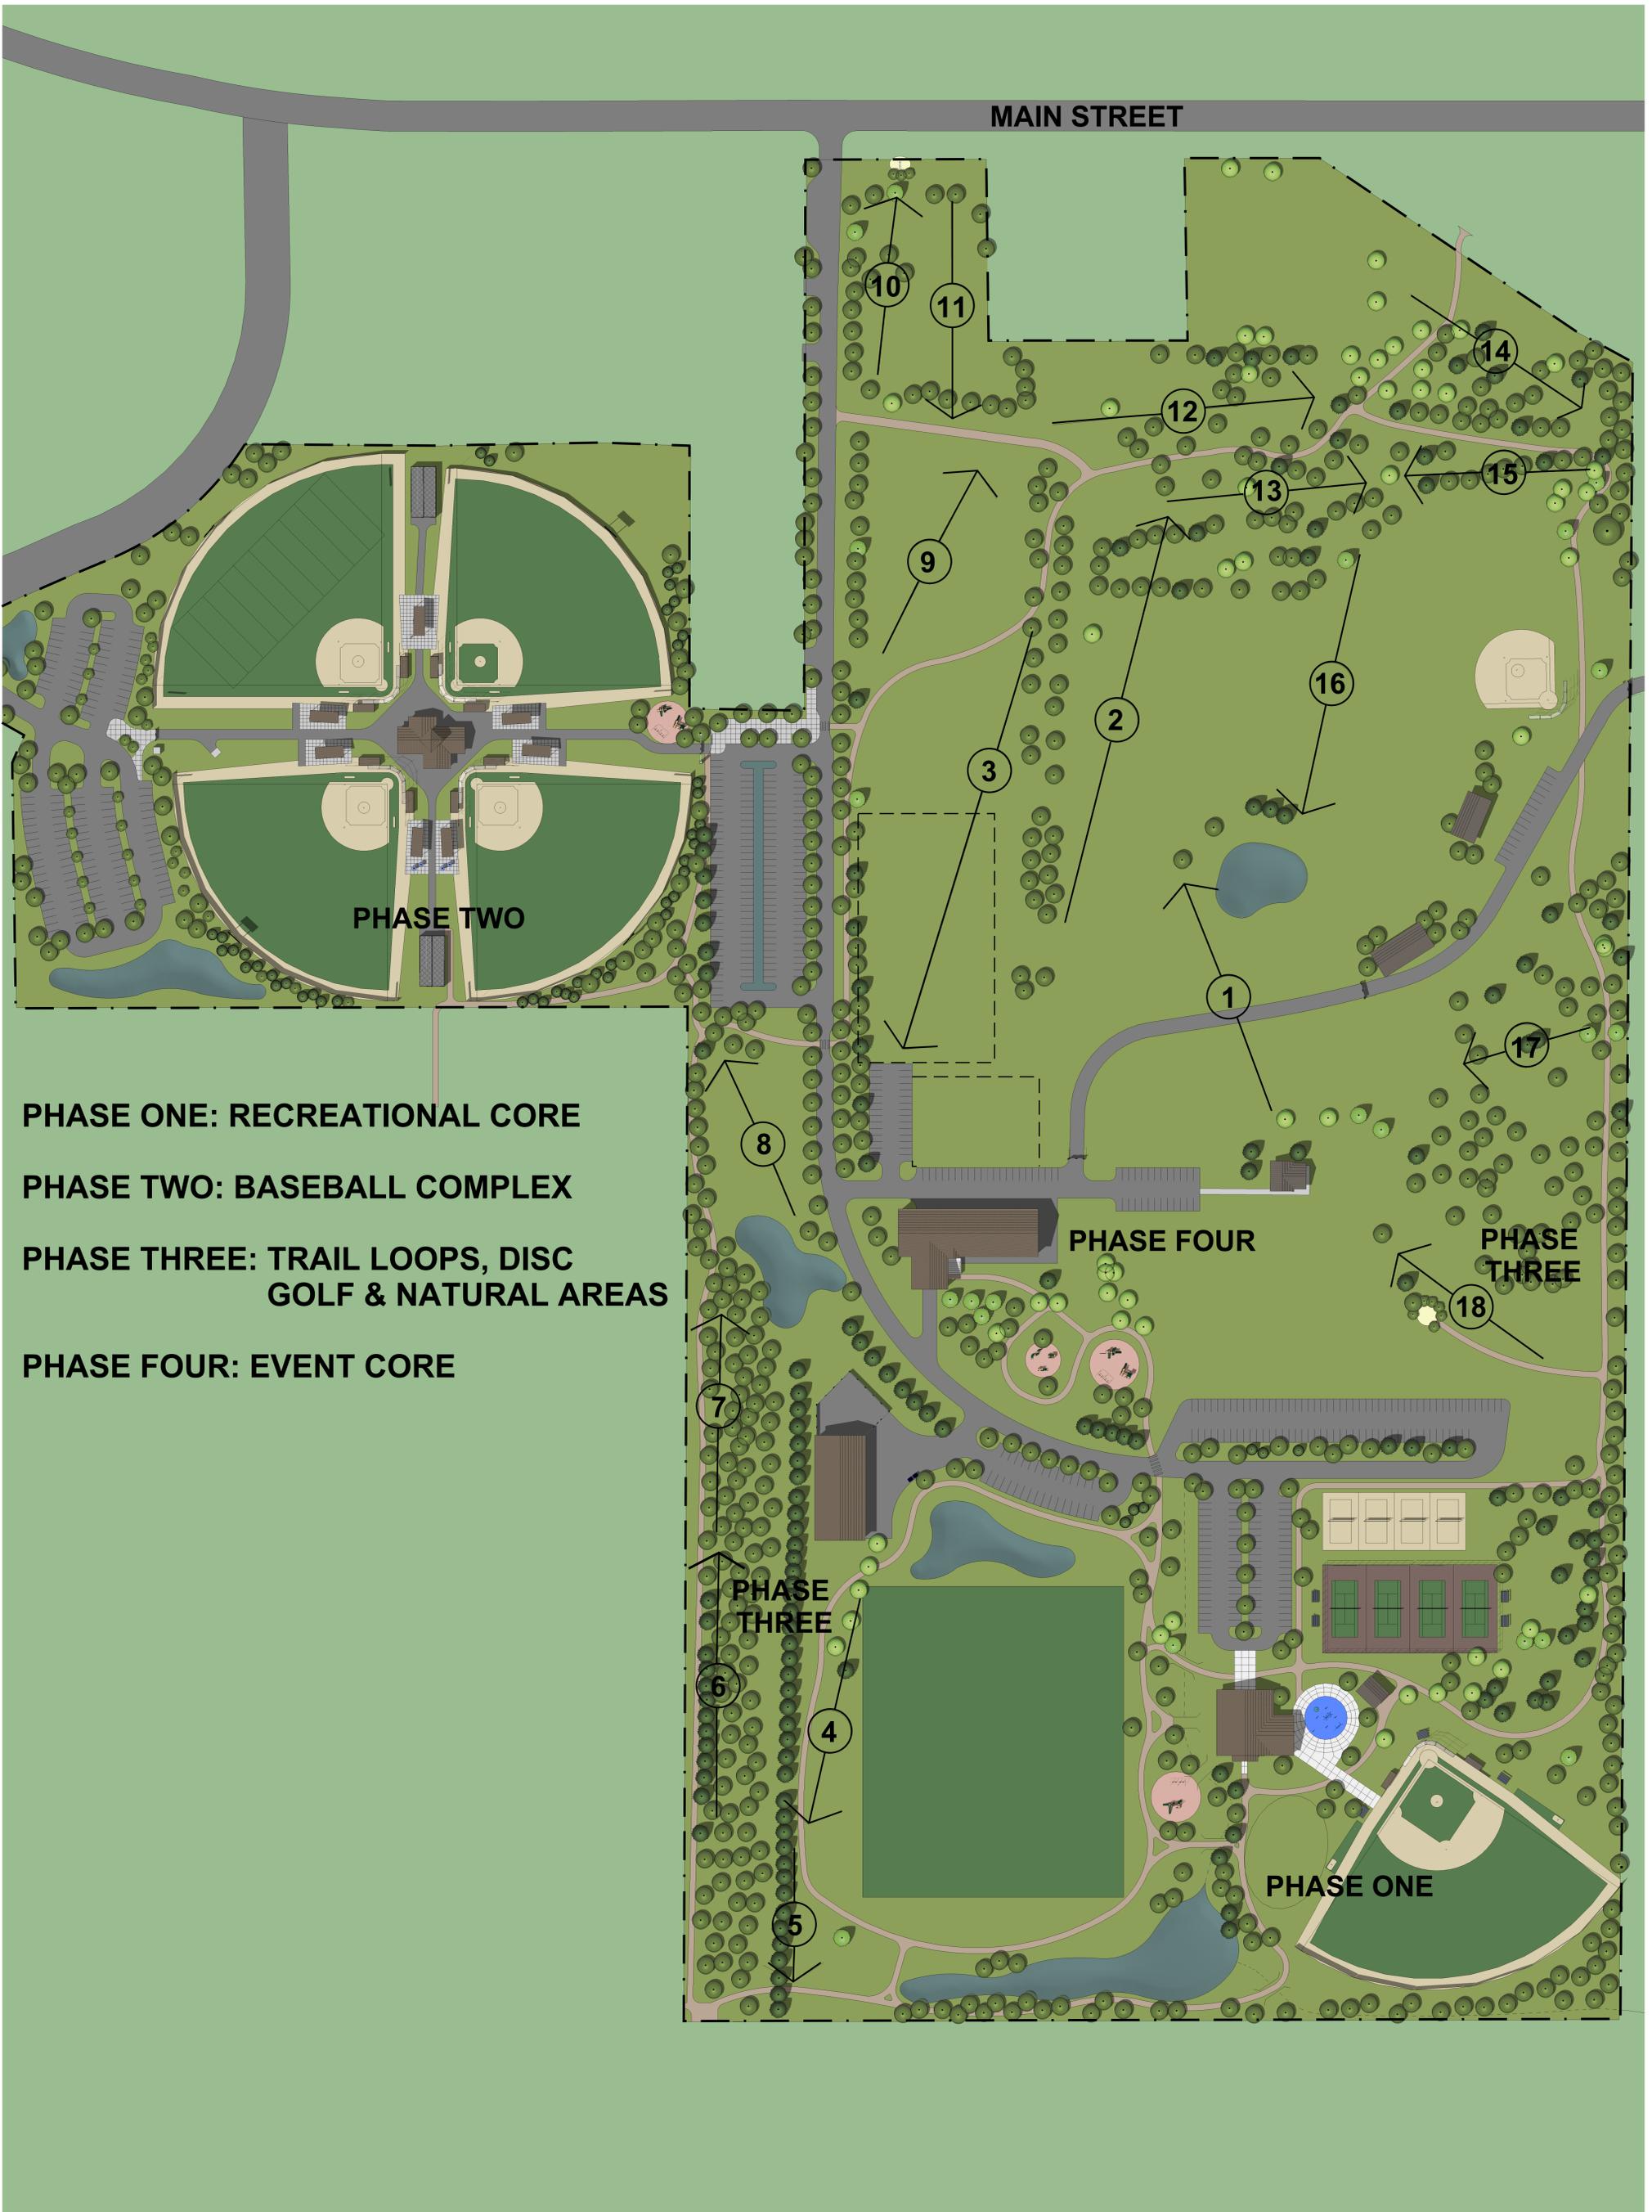

Date: 5/5/2016

Staff wanted to bring an update to the Village Board about a Capital Improvement Project (CIP) for next year. The Village's CIP calls for Phase 1 of the Village Park Master Plan to be constructed next year. The developer has indicated he is ready to proceed with his development next year, which makes phase 1 possible. Phase 1 includes a Quad Plex of four baseball diamonds, a large parking lot, and a multi-purpose concession building that will also house storage for the park system, seating, bathr

ooms, etc. In order to design the building the Village needs to hire an architect. The architect will work with the invested user groups, the review team (members of the Park and Recreation Board and Village Board), and staff to design the building for bidding, and tie it with the civil work.

Another important aspect of this stage is relating the architecture of this building with the conceptual architecture of the other 7 buildings in the Village Park Master Plan for coordination of uses, design, and function. It is important for the park to have a consolidated design and for each of those buildings/spaces to be coordinated with this first one so we have an efficient use of the park space. The architect won't design all of the other buildings to construction plan sets, but will complete space needs analysis and conceptual design at this time to set the stage for long term completion of the Master Plan.

The RFP for Design services will go out in May and by June we should have a recommended vendor to bring a contract to the Park and Recreation Board and Village Board for approval. I have reached out to several architects that have done great work in this area and have worked with the Village in past ten years and they have interest.
